

## FRESH AIR WITH UNINTERRUPTED VIEWS

The Big Door retractable screen system for Andersen's MultiGlide™ and Folding Outswing Doors is designed to help manage insects while allowing for fresh air and expansive views. The screen is fully retained within the frame on all sides and retracts discreetly when not in use to remove visual distractions and bring the outdoors in.

### KEY FEATURES

- For use with MultiGlide and Folding Outswing Doors
- Fits openings up to ~30' wide and 10' tall
- Built into the wall and hidden from sight when not in use
- Load balancing technology allows screens to glide smoothly across the entire opening and effortlessly stop at any desired position
- Mounted only to the interior side of the door unit
- Designed for ease of installation and does not connect directly to the door unit
- Each screen is custom ordered to exact size requirements based on door type, configuration and size

### CONFIGURATIONS

#### Single

A single screen extends from one side of the frame and covers the full width of the opening.

- For use with Folding door units up to 14'-6 7/8" wide and 10' tall
- For use with MultiGlide door units up to 14'-11 1/2" and 10' tall

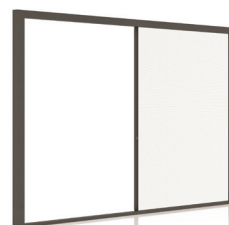

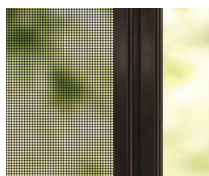

#### Double

Two screens, housed on each side of the frame meet in the center of the opening.

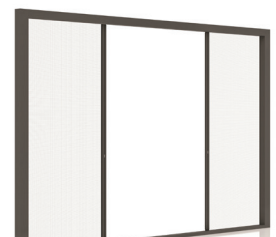

- For use with Folding door units up to 29' wide and 10' tall
- For use with MultiGlide door units up to 29'-3" and 10' tall

### INSECT SCREEN

- Durable polyester/PVC standard weave mesh is fully retained within the frame, with no gaps, to allow for control of insects
- Screens held securely in place by top and bottom tabs, preventing screen blow-out from wind gusts
