ARCHITECTURAL AUTHENTICITY, UNPARALLELED PERFORMANCE
A-SERIES WINDOWS & PATIO DOORS

Designed in conjunction with leading architects to provide authentic architectural style, A-Series windows and patio doors offer all of the options you need to easily create the look you’ve been dreaming of. Beyond delivering the style you want, A-Series products are the best performing, most energy-efficient windows and patio doors Andersen offers for true peace of mind.

It has never been so easy to dream, easy to understand your options and easy to select the products that fit not just your home, but also your vision. And like all Andersen products, they are supported by over 115 years of commitment to quality and service that can only come from one of the most trusted names in the industry. For more information, visit andersenwindows.com/a-series.
ARCHITECTURAL STYLE MADE EASY

The Andersen Home Style Library is an industry-leading, innovative approach based on the style of home you want to create rather than a type of window or door. The result is a series of windows and doors carefully designed with authentic architectural style in mind. Visit andersenwindows.com/stylelibrary to learn more.
**ANDERSEN® A-SERIES DOUBLE-HUNG WINDOW TESTED TO AAMA/WDMA/CSA 101/15.2 A440-08 & -11 PG50.**

**QUALITY SO SOLID, THE WARRANTY IS TRANSFERABLE**
Most other window and door warranties end when a home is sold, but our coverage — 20 years on glass, 10 years on non-glass parts — transfers from each owner to the next. And because it is not prorated, the coverage offers full benefits, year after year, owner after owner. So it adds real value when you decide to sell your home.

**NEVER NEEDS PAINTING**
Exteriors won’t flake, rot, blister, peel, pit or corrode,* so they’re virtually maintenance free. Plus, they hold their original vibrant colors.*

**BUILT FOR YEARS TO COME**
A-Series windows and doors are built strong to last long.* We use the right materials in the right places, including solid wood, fiberglass and our own Fibrex® composite material. These give A-Series products superior strength, stability and long-term beauty.

**RIGOROUSLY TESTED**
A-Series products have been exposed to extremes, going from temperatures duplicating the cold of Alaska winters to the heat of Death Valley summers, three times a day, day after day. They came through it all beautifully.

**KEEPS THE WEATHER OUT**
With their weather-resistant seals, A-Series windows and doors can stand up to eight inches of rain per hour and hurricane-force winds.” Double-hung windows feature a dual-bulb seal, and casement windows use “refrigerator” style gaskets to help keep air and water out.

*Visit andersenwindows.com/warranty for details.

**Andersen® A-Series double-hung window tested to AAMA/WDMA/CSA 101/15.2 A440-08 & -11 PG50."
A-SERIES WINDOWS

DOUBLE-HUNG WINDOWS
Double-hung windows have two operating sash (glass panels) that move up and down allowing for ventilation on the top, bottom or both. With a tilt-in feature for easy cleaning, these windows are ideal around patios, decks and walkways.

SPECIALTY WINDOWS
Specialty windows are stationary (non-opening) windows characterized by their special shapes, including curves and dramatic angles. They can make a signature statement in your home or provide a delicate lighting accent.

CASEMENT & AWNING WINDOWS
Casement windows are hinged on the side and crank open outward to the left or right allowing for full top to bottom ventilation. Awning windows are hinged on the top and open outward from the bottom, allowing for ventilation and protection from the rain. Both styles can be grouped in stunning combinations for a better view.

VENTING & STATIONARY TRANSOM WINDOWS
Transom windows can be used in window combinations or placed above doors to let in light and fresh air while adding style and curb appeal. Available as a venting window that is hinged at the top and opens outward or as a stationary (non-operating) window.

A-SERIES FRENCHWOOD® PATIO DOORS

FRENCHWOOD GLIDING PATIO DOORS
Gliding patio doors have at least one door panel that glides horizontally past another door panel. They fit into tighter spaces than hinged doors because their panels don’t interfere with your room or patio.

FRENCHWOOD HINGED PATIO DOORS
Inswing patio doors open into the interior of your home, saving room for smaller exterior areas such as balconies or patios. Outswing patio doors open outward, giving you more space inside your home. Both doors feature traditional French styling that goes well with any home style.

FRENCHWOOD TRANSOMS & SIDELIGHTS
Transoms go above a door while sidelights flank one or both sides of the door. Alone or combined, they can turn your doorway into a focal point while letting more natural light into your home’s entryway.

All windows and patio doors are available in custom sizes.
OPTIONS TO FIT ANY HOME

A-Series windows and doors provide you with a wide palette of exterior colors, wood species and interior finishes to help you bring your personality and taste to your home.

EXTERIOR COLORS

Select any combination of colors, shown here, for your exterior frame, sash and trim.

INTERIOR WOOD SPECIES

FACTORY-FINISHED INTERIORS

Shown on pine. Available on pine, maple and oak only.

INTERIOR PAINTED OPTIONS

Available on pine. Additional colors to match all 11 exterior colors are also available, contact your Andersen supplier.

EXTERIOR TRIM

Exterior trim adds a finishing touch to your windows and is often essential in achieving authentic architectural style. To see more trim options and to design your window, visit andersenwindows.com/design-tool.

*Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies. Interiors are unfinished unless a stain or paint option is specified. Naturally occurring variations in grain, color and texture of wood make each window one of a kind. Printing limitations prevent exact replication of colors and finishes. Please see your Andersen supplier for actual color and finish samples.

THE SMARTEST TECHNOLOGY FOR THE SMARTEST HOMES

Andersen® A-Series products can now be part of today’s connected home. Manage the status of your windows and patio doors anytime and from anywhere and with our Yale® Assure Lock® remotely lock or unlock your hinged patio doors. Learn more about managing security and the convenience and peace of mind Andersen smart home products offer at andersenwindows.com/connect.

YALE ASSURE LOCK™

Never worry about carrying or losing keys again. Monitor, lock and unlock from anywhere with the Yale Assure Lock. The sleek key free lock includes Bluetooth® for keyless unlocking and is compatible with Z-Wave® for integration with a wide range of smart home platforms.

VERILOCK® SECURITY SENSORS

With the most advanced technology in the industry, VeriLock security sensors not only indicate whether windows and doors are open or closed, they even tell you if they are locked or unlocked.” No other sensor can do that.

WIRELESS OPEN/CLOSED SENSORS

These wireless sensors provide the peace of mind of knowing whether windows and doors are open or closed.”

*Available on select Andersen hinged patio doors, see your Andersen supplier for details.
**When properly configured and maintained with a professionally installed security system and/or self-monitoring system compatible with Honeywell® 5800 controls. See your supplier for more information. Yale manufactures and supports the limited warranty for Yale Assure Lock for Andersen patio doors.
ARCHITECTURALLY AUTHENTIC GRILLES

Andersen® A-Series windows and patio doors offer a variety of grille types and grille patterns, making it easy to fit both your style and your home’s. For a signature look, we’ll also work with you to create custom grille designs.

FULL DIVIDED LIGHT
Permanent exterior Permanent interior with spacer

SIMULATED DIVIDED LIGHT
Permanent grilles on the exterior and interior with no spacer between the glass. We also offer permanent exterior grilles with removable interior grilles.

CONVENIENT CLEANING OPTIONS
Removable interior grilles come off for easy cleaning. Finelight grilles-between-the-glass are installed between the glass panes and feature a contoured ¾” or 1” profile.

Cross section of grilles showing standard widths and profiles.

SCREEN OUT THE INSECTS, NOT THE VIEW

Optional insect screens are available for all A-Series products. Patio doors feature conventional Andersen fiberglass insect screens. For windows, choose aluminum insect screens, or TruScene® insect screens that provide a clearer view, help bring the outdoors into your home and are less noticeable from the street.

* ¾”, 1 ¼” and 2 ¾” not available in Finelight grilles-between-the-glass.
**BEST-IN-CLASS GLASS**

Glass can affect energy efficiency more than any other part of a window or patio door — and not all glass performs the same. Some types of glass do a better job at insulating your home. Others provide greater clarity. You can even choose glass to filter out specific kinds of light. Andersen offers one of the industry’s widest arrays of glass options, enabling you to find the right choice for your climate and your home. Choose from these High-Performance glass options.

Center of glass performance only. Ratings based on glass options as of March 2019. Visit andersenwindows.com/energy for ENERGY STAR® map and NFRC total unit performance data.

Additional glass options are also available. Visit andersenwindows.com/glass or see your Andersen supplier.

**HEATLOCK® TECHNOLOGY**

Our HeatLock coating can increase the energy efficiency of any A-Series window or patio door with Low-E4 or SmartSun glass. Applied to the room-side glass surface, it reflects heat back into the home for improved performance.

**BLINDS-BETWEEN-THE-GLASS**

Blinds-between-the-glass offer privacy and convenience. Located between the panes of insulated glass, they are protected from dust and damage and never need cleaning.

**PATTERNED GLASS**

Patterned glass lets in light while obscuring vision and adds a unique decorative touch to your home. Cascade and Reed patterns can be ordered with either a vertical or horizontal orientation.

Cascade Fern Obscure Reed

**STORMWATCH® PRODUCTS**

Andersen® A-Series products are available with impact-resistant glass and structural upgrades to meet the tough building codes of hurricane-prone coastal areas. Visit andersenwindows.com/coastal for more information and see your local building code official for specific requirements in your area.
BETWEEN-THE-GLASS ART GLASS

Available on most A-Series products, these finely crafted inserts are between the glass, which places the decorative panel between the glass panes, providing superior protection for the art glass and making it easy to keep clean. Available in our Historic and Classic series to complement any home’s architecture. Visit andersenwindows.com/artglass to see all available patterns and contact your Andersen supplier for availability.
THE ENVIRONMENT HAS A BUSINESS PARTNER

Respect for the environment is nothing new at Andersen. For more than a century, it’s been part of who we are. Our commitment to recycle and reclaim materials began simply because it was good business. Now it’s part of our broader commitment to sustainability and responsible stewardship of all our resources. Andersen is committed to providing you with long-lasting, energy-efficient windows and doors. Visit andersenwindows.com/sustainability for more information.

Andersen makes windows and doors with options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.

Andersen is a charter member of the U.S. Green Building Council and a strong supporter of its LEED® (Leadership in Energy and Environmental Design) National Green Building Standard rating system.
