Unit Sizes

Standard and Custom Window Sizes

Note:

E-Series Arch Casement Windows are available in standard sizes (see standard size charts, [page 6](#)). Replacement parts for some standard windows can be ordered using the numbers listed in this catalog. Many replacement parts for standard windows are made to order. These items are ordered using the Product ID found on the identification label and a description of the part needed. See [Service Guide 9051877](#).

E-Series Arch Casement Windows are also available in custom sizes in 1/8" increments between the smallest and the largest standard sizes. Most replacement parts for custom-sized windows are made to order and can be ordered with the Product ID found on the identification label and a description of the part needed. See [Service Guide 9051877](#).

E-Series Product Label

Note:

Every E-Series Arch Casement Window will have an identification label **or** glass etching containing a unique Product ID. The Product ID on E-Series Arch Casement Windows will be located at the top of the window frame or etched into the glass. See [Service Guide 9051877](#). The Product ID may be up to 14 digits long (excluding hyphens), depending on the age of the unit. Replacement parts will also get their own unique Product ID. When ordering replacement parts, providing the Product ID ensures that replacement parts match the specifications.

E-Series Arch Casement Windows (2011 to Present)

Standard Windows

Unit Sizes

Unit Size Chart - Standard Windows

Note:

F.S. refers to overall outside-to-outside frame. R.O. refers to rough opening. See latest [Size Grid](#).

Types

Full Divided Light

Give any window an authentic look with full divided light grilles that are permanently applied to the interior and exterior of your window with a spacer between the glass.

Simulated Divided Light

An economical solution with traditional beauty, our Simulated Divided Light features fixed exterior and interior grilles without an internal spacer.

Removable Interior Wood Grilles

Our removable wood grilles are installed on the interior surface. They are available with an optional surround and an optional permanently applied exterior grille.

Finelight™ Grilles-Between-the-Glass

Aluminum grilles conveniently placed between two panes of glass make the glass easy to clean inside and out.

Radius Rigid Vinyl Fin

Note:

The Radius Nailfin is used for any unit with a Radius. The Radius Nailfin will be used for the top of the unit and the standard Rigid Nailfin will be used for the bottom and sides. If the top of the unit is a Radius, A drip cap will not be required but the Optional Radius Metal Drip is available below.

		Length	Order No.
		102"	0654052
		188"	0002974

Radius Metal Drip Cap

Note:

The Optional Radius Metal Drip Cap is only used for any unit with a Radius Top, combined with the Standard Radius Rigid Vinyl Nailfin. Radius Top units do not require a drip cap but some customers prefer the units to match the drip cap look like the rest of their project and can choose to add this optional Radius Metal Color matched Drip Cap.

Provide Color, Base Dimension and Radius Dimension.
