### 400 Series Product Label

**Note:**

Some Arch windows will have an identification label **or** glass etching containing a unique Product ID. The Product ID on Arch windows will be located at the bottom of the window frame or etched into the glass. See [Service Guide 9051877](#))The Product ID may be up to 14 digits long (excluding hyphens), depending on the age of the unit. Replacement parts will also get their own unique Product ID. When ordering replacement parts, providing the Product ID ensures that replacement parts match the specifications.

**Grille alignment with other Andersen® products.** All vertical arch window grille members were designed to be equally spaced. Vertical alignment may not coincide when units are transom joined. All horizontal grille members were designed to line up with corresponding casement sizes. Special order arch window grilles are available to achieve proper alignment.

Sizes on this page are shown with the Renaissance grille pattern.

Renaissance not available with Finelight® grilles.

Specified equal light and custom patterns are also available. Not all grille patterns are available in all configurations.
