Circle & Oval Unit Parts

## Unit Sizes

### 400 Series Product Label

**Note:**

Some Circle/Oval Windows will have an identification label or glass etching containing a unique Product ID. The Product ID on Circle/Oval Windows will be located at the top of the window frame or etched into the glass. See [Service Guide 9051877](#). The Product ID may be up to 14 digits long (excluding hyphens), depending on the age of the unit. Replacement parts will also get their own unique Product ID. When ordering replacement parts, providing the Product ID ensures that replacement parts match the specifications.

### Unit Size Chart

### Transition Blocks

Oval/Circle

**Note:**

Circle transition blocks are cut at a 45 degree angle.

Used on standard and HPIR units.

Units with laminated glass use a unique transition block [page 23](#)

Units with art glass use a unique transition block [page 19](#)

See [Accessory Guide 0005235](#).

Modifications may be needed when interior grilles are positioned where the transition piece meets grille.

### Transition Block - Inside Stop / Narrow (Pair) No. 8 [page 10](#)

Service Replacement

Service Replacement Only Parts

---

### Service Replacement Only Parts

**Note:**

This section is specifically designed for parts that should only be ordered if a Territory Service Manager/Service Provider Company has requested them to be ordered or if the customer agrees to also pay for a non-warranty repair/replace service job (subject to availability) for these parts to be installed. We do not recommend anyone other than a trained AW employee or Service Provider install these parts due to the complexity of installation, modifications required for installation and/or requirement of special tools.
